Lieutenant Governor Welcomes Pavaia'i Early Childhood Education to Official Residence.

Pavaia'i Elementary School's Early Childhood Education (ECE) organized an exciting field trip to the Lieutenant Governor's mansion, providing young students, parents, and teachers with a unique opportunity to explore this historic residence. The Lieutenant Governor Pulumataala Ae Ae Jr. warmly welcomed the group, arranged for an official to guide them through the mansion and around the property, sharing stories about its history and significance. He expressed his hope that one day, one of the visiting children might grow up to become a Lieutenant Governor and call the mansion their home. He emphasized that the mansion is a place that welcomes everyone, reflecting the spirit of community and leadership.

This field trip continued a longstanding tradition of local schools visiting the Governor's and Lieutenant Governor's residences, fostering a sense of connection and inspiration among the children. The visit concluded on a cheerful note, with the Lieutenant Governor treating all the kids to McDonald's, leaving them with smiles and cherished memories. More than just an educational experience, the trip was heartwarming, encouraging the children to dream big while feeling welcomed by their community leaders.
